DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Applicant's Amendment and Response, filed 11/7/2008, with respect to claims 1-32 have been fully considered and are persuasive. The 35 U.S.C. 103(a) rejection of claims 1-32 as being unpatentable over Goodwin, US Pat. No. 6,547,040, in view of Kasinoff, US Pat. No. 7,041,915, has been withdrawn.

Allowable Subject Matter

2. Claims 1-32 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's argues that the references to Goodwin and/or Kasinoff, alone and in combination, fail to disclose, as claimed, "a supply of labels and a supply of label RFID tags", "wherein the scale is adapted to output a label so as to enable application of an associated label RFID tag to the weighed item", and "the identification number linked to transaction data including at least the total price and weighed item identity". Examiner agrees with Applicant because neither Goodwin nor Kasinoff teaches this particular combination.

4. The Goodwin reference discloses a security system that weighs items that are checked out via an RFID tag to crosscheck and ensure that the item purchased corresponds in weight to the item bearing the RFID tag. As such this system would prohibit someone from putting an RFID tag for lightweight inexpensive item on a heavy expensive item and checking out. This system would not, as does the claimed invention, immediately associate an RFID tag to a

recently weighed and priced bulk item such that the bulk item would bear the correct price when the RFID tag is scanned at checkout.

5. The Kasinoff reference discloses an automated scale that, as a security feature, allows only designated personnel to log-in via an RFID and use the scale to price store items. As such, this system would prohibit unauthorized personnel from incorrectly pricing items via the scale. This system would not, as does the claimed invention, immediately associate an RFID tag to a recently weighed and priced bulk item such that the bulk item would bear the correct price when the RFID tag is scanned at checkout.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The relevant art made of record and not relied upon is considered pertinent to applicant's disclosure is as follows: Lapstun et al., US Pub. No. 2006/0237546, (disclosing maintaining a static RFID for an item in a database and using it as a data key to reference other dynamic item information); and *Automatic identification is flying high; a report on the impact on manufacturing and distribution of automatic identification technology* by Knill, Bernie, Industry Week , v234 , pA1(23), Aug 24 , 1987.
